

COVID-19 PROACTIVE AND PREVENTIVE MEASURES

The health of our guests and staff is our top priority!
Due to the coronavirus pandemic, we have taken additional precautionary measures to ensure a safe stay for our guests.

With our own healing center run by [Africa Amini Alama](#) and CEO Mag. Dr.med. Cornelia Wallner-Frisee, we offer our guests the best possible support in health matters. Thus we guarantee the necessary measures for a safe stay of our guests in the **Africa Amini Life** Lodges and holiday flats - especially in the current situation of the global coronavirus pandemic. We also work with a local medical team and guests benefit from networking with larger hospitals in Moschi and Arusha should the need arise.

GENERAL HYGIENE & PRECAUTIONARY MEASURES

- Hand washing and soap dispenser stations in all areas of the lodge.
- Hand sanitizer in all areas.
- Guest suites disinfected prior to check-in and daily during guests' stay.
- Spa and wellness areas are cleaned more regularly, with special attention paid to high contact areas.
- All our guest accommodation is located at a safe distance from other guest units (bungalows, flats).

SOCIAL DISTANCE

- In all public guest areas.
- When allocating dining tables.
- On game drives, except for groups travelling together.
- During all activities and excursions

EATING

- No buffets
- No external communal gatherings (lunch, dinner, boma supper) unless booked by us for exclusive use.
- Snacks/lunchboxes packed individually.

GAMEDRIVES, LODGE TRANSPORT AND ACTIVITIES

- All lodge and hired vehicles are extensively sanitised between transfers, tours and game drives.
- Transports are exclusive within groups.
- All activities offered by Africa Amini Life take place outdoors.
